NEW CARNATIONS FOR 1931

WILDFIRE (Dorner)

Bright scarlet, seedling of Spectrum, with a marked improvement of growth and better form and color. \$15.00 per 100, \$125.00 per 1000.

MARJORIE (Kircher)

A beautiful shade of dark pink. Very strong, healthy grower, very free, exceptional keeper. Complete description later. \$15.00 per 100, \$125.00 per 1000.

SPECTRUM SUPREME

Very brilliant red. Stronger grower than Spectrum, equally free bloomer; does not split; splendid keeper. \$12.00 per 100, \$100.00 per 1000.

"ILLUMINATOR" (Baur-Steinkamp)

A seedling. Its bright cerise color fairly "looms up" among the pink shades and it holds its color exceptionally well, turning to a pleasing lighter shade as the bloom ages. It is of good commercial size, has a good calyx and stem, and, best of all, "it puts out the blooms." December and later delivery. \$15.00 per 100, \$125.00 per 1000.

LAST YEAR'S INTRODUCTIONS and STANDARD VARIETIES

SPICY WHITE. A pure white seedling; large flower. Very free, long, stiff stem; excellent keeper and shipper. Rooted Cuttings, January, 1931, and later. \$12.00 per 100, \$100.00 per 1000.
POTENTATE. A purple variety that, as a novelty has become quite popular with the retailer. A splendid producer. Has good stems, size and calyx. It is an exceptionally high grade Carnation. Rooted Cuttings, January and later. \$12.00 per 100, \$100.00 per 1000.

NEW ROSES FOR 1931

DE LUXE (White Bros.)

Exceptionally good, commercial, red Rose. A sport of Supreme. Color: Outside of petal about the same as Red Premier; inside of petal bright, velvety red. Formation of bud is perfect, length of petal equal to Supreme, exceptionally good keeper and shipper and the color holds until petals drop. It is a stronger grower than any other of the Premier family. A more complete description on request.

ROSLYN (Edward Towill)

A seedling Pernet x Buttercup. We believe Roslyn to be the most beautiful and distinct yellow Rose of today. A long bud, perfectly formed. Excellent keeper and shipper. Almost as free bloomer as Talisman. Color reproduction with complete description later. This Rose is better on its own roots and budded on odorata than grafted on Manetti.

IMPRESS

Introduced last season; has proven a first-class all-the-year forer. It is of strong growth, of free flowering habit, with glossy, bronze green foliage and exceptionally distinct in its combination of colors. The bud is cardinal red, shaded orange, and as the flower develops the open flower is a beautiful salmon cerise. Petals, 40 to 45. An outstanding characteristic of the variety is its lasting qualities.
